

Slot.it Challenge Clerk of the Course

Procedures before race:

**Cars should have their body detached from the chassis when presented for inspection.
Collect race entry fee.**

General:

- Models allowed: Sauber C9 Mercedes, Jaguar XJR9 & XJR12, Lancia LC2, Mazda 787B, Porsche 956/962.
- Log car weight and magnetic pull using a *Magnet Marshal*.

Body:

- Check for any modifications to body or cockpit, weight removal in particular.
- Verify spoiler rigidity.

Chassis:

- Check for any modifications to the chassis. Chassis must be intact and not over sanded.
- Check lead wires interference with front axle ride height.
- Check for magnets.
- Verify that tires do not protrude outside the body.
 - *A strip of plastic will be provided for this verification. Place the plastic strip against the body and verify that the tires do not touch it.*
- Verify that the motor pod does not protrude below the chassis.
 - *A strip of plastic will be provided for this verification. Place the plastic strip against the chassis and verify that the pod is level or above it.*

Motor:

- Check for any modification to the motor.
- Check motor serial number and tamper proof seal condition. Motor serial number must match with the number drawn by the racer from race 1 to 3 and from race 4 to 6.
 - *Log motor serial number.*

Motor Pod:

- Check for any modification to the motor pod.
- Check for excessive flash removal.
- Check for the use of spacers between motor pod and chassis.

Gears:

- Check for any modification to the gears.

Wheels:

- Check for any modifications to the wheels.
- Check wheel size/diameter.

Tires:

- Check if tires were glued
 - *Lift tire slightly but do not remove it.*
- Check for the presence of traction compounds
- Verify tire brand

Ask the participant to attach the body and tape over all screws.

Chassis:

- Verify that tape used over screws do not interfere with pod movement.

Procedures during race:

All work to a car must be done during green flag conditions.

Procedures after race:

If a car had work done during a race, verify the car for any irregularities listed on the "procedures before race".
